

## Trial Description

### Title

**Mental attitude of patients and therapists towards the pharmaceutical therapy of alcohol dependence**

### Trial Acronym

[---]\*

### URL of the trial

[---]\*

### Brief Summary in Lay Language

**Aim of this study is to identify factors on behalf of alcohol dependent patients and addiction-therapists inhibiting recommendation, administration and usage of Anti-Craving drugs despite their proven efficacy and recommendation by alcohol-use disorder guidelines by using questionnaire-based clinical interviewing.**

### Brief Summary in Scientific Language

**Aim of this study is to identify factors on behalf of alcohol dependent patients and addiction-therapists inhibiting recommendation, administration and usage (i.e. implementation) of Anti-Craving drugs despite their proven efficacy and recommendation by alcohol-use disorder guidelines by using questionnaire-based systemical clinical interviewing on patients and a questionnaire-based survey on therapists.**

### Do you plan to share individual participant data with other researchers?

**No**

### Description IPD sharing plan

## Organizational Data

- DRKS-ID: **DRKS00013881**
- Date of Registration in DRKS: **2018/04/26**
- Date of Registration in Partner Registry or other Primary Registry: [---]\*
- Investigator Sponsored/Initiated Trial (IST/IIT): **yes**
- Ethics Approval/Approval of the Ethics Committee: **Approved**
-

DRKS-ID: **DRKS00013881**

Date of Registration in DRKS: **2018/04/26**

Date of Registration in Partner Registry or other Primary Registry: [---]\*

Investigator Sponsored/Initiated Trial (IST/IIT): **yes**

Ethics Approval/Approval of the Ethics Committee: **Approved**

(leading) Ethics Committee Nr.: **18-7966-BO , Ethik-Kommission der Medizinischen Fakultät der Universität Duisburg-Essen**

## Secondary IDs

## Health condition or Problem studied

- ICD10: **F10.2 - Mental and behavioural disorders due to use of alcohol; Dependence syndrome**

## Interventions/Observational Groups

- Arm 1: **Aim of this study is to identify factors on behalf of 300 alcohol dependent patients (ICD10 F10.2) and addiction-therapists inhibiting recommendation, administration and usage (i.e. implementation) of Anti-Craving drugs despite their proven efficacy and recommendation by alcohol-use disorder guidelines by using questionnaire-based systemical clinical interviewing on patients and a questionnaire-based survey on therapists. Estimated time-range for questioning are 6 months.**

## Characteristics

- Study Type: **Non-interventional**
- Study Type Non-Interventional: **Observational study**
- Allocation: **Single arm study**
- Blinding: [---]\*
- Who is blinded: [---]\*
- Control: **Uncontrolled/Single arm**
- Purpose: **Treatment**
- Assignment: **Single (group)**
- Phase: **N/A**
- Off-label use (Zulassungsüberschreitende Anwendung eines Arzneimittels): **N/A**

### Primary Outcome

**Primary Aim: To identify factors on behalf of alcohol dependent patients and addiction-therapists inhibiting recommendation, administration and usage of Anti-Craving drugs.**

**Patient questioning: Personal systemic clinical interview of out- and inpatient alcohol-dependant patients. The patient's questionnaire includes questions on sociodemographic data, somatic and psychiatric illness, substance abuse and addiction, current medication and knowledge on and experience with Anti-Craving drugs.**

**Therapist questioning: The therapist's questionnaire includes questions on sociodemographic data, work experience in the therapy of substance dependence, knowledge of Anti-Craving drugs and their attitude towards these substances. Answers to the questionnaire are recorded qualitatively and quantitatively. The patients' questioning is planned to start in July 2018, the therapists' questioning in September 2018**

### Secondary Outcome

/

### Countries of recruitment

- DE **Germany**

### Locations of Recruitment

- Medical Center **LVR-Klinik, Bonn**
- Medical Center **LVR-Klinikum Essen, Essen**

### Recruitment

- Planned/Actual: **Actual**
- (Anticipated or Actual) Date of First Enrollment: **2018/06/15**
- Target Sample Size: **300**
- Monocenter/Multicenter trial: **Multicenter trial**
- National/International: **National**

### Inclusion Criteria

- Gender: **Both, male and female**
- Minimum Age: **18 Years**
- Maximum Age: **no maximum age**

### **Additional Inclusion Criteria**

**Existing alcohol-dependency (ICD10 F10.2), no acute episode of psychotic disorder or intoxication, minimum age of 18 years, sufficient comprehension of the German language in order to fully understand questions asked.**

### **Exclusion criteria**

**No existing alcohol-dependency (ICD10: F10.2), acute episode of psychotic disorder, intoxication, younger than 18 years, insufficient comprehension of the German language hence not capable of fully understanding questions asked.**
